Summary

Polyglot Full Stack developer with 11+ years of hands-on experience in developing, testing, deploying and maintaining high-quality, scalable and cost-effective B2B enterprise scale solutions. Contributor to open source and part-time technical writer.

Experience

Habib Bank Limited **December 2017 - Present**
Senior Full Stack Developer Karachi, Pakistan
<https://www.hbl.com>

- Developed end-to-end SDRP application, an initiative by the former Prime Minister of Pakistan, Imran Khan, to incentivize remittance through banking channels supporting 100,000+ transactions daily, resulting in 80% more usage.
- Developed One Window Solution, a unified platform integrating multiple APIs to streamline HBL's payment processing. The application is live in 1700+ branches in Pakistan supporting 3000+ concurrent transactions per second.
- Revamped the entire Payment Processing System, currently serving 2.7M users in 25 countries worldwide, seamlessly integrated with 500+ international banks like J.P Morgan and generating an average monthly revenue of PKR 5M for Pakistan.
- Led technical teams, mentored junior developers, and conducted technical interviews. Performed code and PR reviews, requirement engineering with product owners and stakeholders.

Bank Al Habib **August 2016 - November 2017**
Full Stack Java Developer Karachi, Pakistan
<https://www.bankalhabib.com/>

- Developed 20+ CRM features end to end used by 1100+ bank branches in Pakistan using Java J2SE, Spring Boot and microservices.
- Developed 600+ complex data retrieval queries and procedures, optimizing database performance and ensuring seamless data access for critical business operations.
- Resolved 200+ reported bugs during User Acceptance Testing (UAT)

EFU Life Assurance Limited **January 2013 - July 2016**
Full Stack Developer Karachi, Pakistan
<https://www.efulife.com/>

- Single handedly developed queueing system resulting in 95% efficient queue management.
- Developed 5 end to end portals for clients, sales agents, and 300+ associated banks to facilitate customer support, resulting in 70% error reduction and 90% more efficiency.
- Integrated third-party APIs and gave extended technical support to clients.
